Gail and I co-own Ginny, but her heart really belongs to “her” three boys, Louis, James and Alan. She loves family walks, being with “her” boys, and playing with Scout. She really likes to practice obedience and rally. Ginny taught herself to jump up on the piano bench and play a couple of notes to summon me when she thinks we should be training. She continues to improve in the venues we have tried and I look forward to many more adventures with her.

Scout is the most curious, exuberant, outgoing dog I have ever owned. She spends most of her time smiling! She hasn't met a person she doesn't like. She also loves her tennis ball, her jolly ball, hanging out in the backyard, playing with Ginny, and running as fast as she can. Linda says that she gets her love of tennis balls from her dad, Dibs. Scout is beautiful, very gifted, fast as lightning, a quick learner, and a lot of fun to train. I look forward to many more years of adventure with her.

When I was looking for my second Belgian Sheepdog, I was looking for a dog that would happily join me in all the sports/activities I wanted to do, and Vortex was the dog I was searching for. At just 4 years old, Vortex and I have excelled beyond my expectations in Agility, quickly getting to Master levels in both Standard and Jumpers, and we are involved and advancing in Obedience, Rally, Scent Work, and Conformation also. Vortex loved, watched, and learned many things from our older Belgian, Colt, and is a valued member of our family. He loves both of his humans, he is a snuggler with a sense of humor, and is always ready to do all the things. I am so blessed to have Vortex as my dog teammate and am excited to see what the future holds for Team Vortex.

Trip is my 6th Belgian - 2nd BSD. He is simply amazing! There's nothing he can't do and everything he does he excels at. When he is training or competing it's "on" - when we just hang out, he's chill. He never fails to give his all in any silly games I choose to play with him. We compete in conformation, scentwork, agility, rally, dock diving, shed hunt and barn hunt at this point. I can't wait to see what exciting things our future holds. It's sure to be quite a ride. He is 7 now and there's still way more for us to accomplish! I couldn't love this dog more! He's a great travel buddy from RV'ing at dog shows or at small engine shows. He handles anything that comes his way with confidence!

He has ended up helping me to fulfill so many dreams I had for that first dog. Blaez helped me to earn my first agility championship title, qualified for our first AKC National Agility Championship, and took us to our first trip to compete in the Westminster Master Agility Championship. Together we have earned preferred High in Trial for obedience and agility and a High in Trial for agility at three BSCA National Specialties. Icey is a total love and goofball extraordinaire! We started showing in rally and obedience when Icey was just a baby, earning his BN and RI by 18 months, then we took a break to get his Championship and Grand Championship. We went back to obedience in early 2020, earning his first 2 CD legs, one with a High In Trial. After the long break in 2020, we hit restart, competing in both obedience and Rally. Icey finished his CD at the 2021 Nationals, earning the Wizards Challenge Trophy. But he made it clear that he much preferred Rally, especially when there were stuffed toys on the course, giving him an excuse to have FUN and embarrass me! The RAE goal morphed into a RACH journey in late 2021. As of January 2024, Icey just needs Master points to complete his RACH. Then back to obedience?? Who knows?

Scentwork has proven to be just the sport for Bexley! Though he loved obedience and rally, I needed to find a job for Bexley that did not involve jumping. What a great experience scentwork has been for both of us! As a handler, I have had to let my dog take the lead, trusting him and learning how to read his alerts. While Bexley is always enthusiastic and ready at the start line, I'm the one feeling the pressure of making the correct final call. We have proven to be an effective team – this past summer Bexley completed his overall Scentwork Master Title! Along the way he earned elite master titles in containers, buried, and exteriors. Buried searches seem to be Bexley's specialty – he qualified in 75% of his master level searches! I look forward to many more adventures with this special boy.

Gracie journeyed with me as a puppy from Sweden in the Fall of 2014. She finished her championship quickly and we began obedience and agility training. Gracie has been one of the more challenging Belgians I have trained, and we have had quite a journey together through life's hurdles. She is crazy excited for the lure, enjoys tracking and loves barn hunt. She has been there for me as my rock-solid emotional support dog companion, and she has also spent a fair amount of time living and traveling on a boat.

What I have learned most from Gracie is to work with the dog I have. After she earned the novice obedience and agility titles, we both started learning scent work in 2021. She honestly loves using her nose, being in charge, and she loves the immediate cookie reward. In 2023 she earned her RATCH and SWE. The titles we've earned are reminders of the journey we've taken together; every minute worth it! I love this girl and this breed! I am looking forward to playing with Gracie finding more rats, rally, chasing the plastic bag, and in master and detective scent work levels in the coming years.

But that was just the beginning of her specialty winning career as she won the 2021 Raritan Regional in conjunction with the National and took at Award of Merit at the 2021 BSCA National. She then went on to win the 2023 BSCA Regionals in Louisville, Lawrenceville, and Canfield. She had her biggest win at the BSCA National Specialty in Asheville in 2023 going Best of Breed under Breed Specialist Linda Robey. Tori has garnered many group placements and performance titles along the way to her Hall of Fame, as well as finishing 2023 by showing outstanding characteristics in the whelping box.
